

Delicatessen and Meat Serve-over Counters

The ultimate range of
modular serve-over
refrigerated cabinets

Carter Retail Equipment

The modern retailers choice in refrigerated display systems

A versatile range of serve-over counters suitable for delicatessen and meat, the Carter serve-over range offers solutions for high visibility impulse shopping. The range includes three tier shelving for bakery counters, low front self-serve counters and a serve-over complete with an upper refrigerated shelf. The refrigerated shelf can offer the capacity of a much larger counter within the foot print of an 8' (2.44mtr) or 12' (3.66mtr) counter. Carter Retail Equipment Ltd serve-over counters are available in both remote and integral versions.

All cabinets are multiplexable and are available in the following module lengths:
8' (2440mm) and 12' (3660mm)

Cabinet	Performance	Total Surface Display Area (mtr ²)	
		2.44mtr	3.6mtr
DA & DB	3M1 (-1+5°C)	2.73	4.09
JA & JB	3M1 (-1+5°C)	2.05	3.08
BA	3M1 (-1+5°C)	4.28	6.41

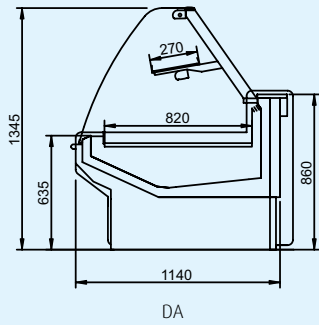

Carter Retail Equipment Ltd take pride in their ability to meet all individual customer requirements. All cabinets are manufactured in a purpose built UK production facility utilising latest semi-automated production flow techniques. Carter Retail Equipment Ltd refrigerated display cases are designed with an emphasis on energy efficiency and provide flexibility for the retailer with a choice of finishes and options.
