

Half Glass Door and Well Freezer Cabinets

The ultimate range of
modular freezer
cabinets

Carter Retail Equipment

The modern retailers choice in refrigerated display systems

Carter Half Glass Door and Well Freezer cabinets provide high visibility of product and merchandising flexibility while minimising floor space and energy consumption. The GA single coil half glass door offers exceptional energy efficiency and a much lower capital outlay in comparison to the traditional style twin coil half glass door. The GA top box enables merchandising on 3 shelves plus base. The WA well freezer is available with ambient shelving over the case complete with undershelf lighting. These cases are also available as an integral scroll option.

All WA well freezer cabinets are multiplexable and are available in 2500mm and 3750mm module lengths. Wrap around end case for island format.

All GA half glass door cabinets are multiplexable and are available in 2500mm and 3750mm module lengths. Wrap around end case for island format

Cabinet	Gross Cubic Merchandising Capacity (mtr ³)	
	2.5mtr	3.75mtr
WA	0.80	1.19
GA	1.6	2.4

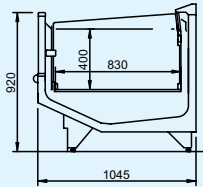

Carter Retail Equipment Ltd take pride in their ability to meet all individual customer requirements. All cabinets are manufactured in a purpose built UK production facility utilising latest semi-automated production flow techniques. Carter Retail Equipment Ltd refrigerated display cases are designed with an emphasis on energy efficiency and providing flexibility for the retailer in choice of finishes and options available.
